PORTFOLIO

HOW THE FUND WORKS

- The Fund focuses on growth equities, providing access to some of the most innovative and fastest growing companies in the world.
- Today the Fund comprises a high conviction portfolio of 20-40 companies and aims to deliver strong risk-adjusted returns.
- It is a true international equities fund, fully invested in structural growth companies outside of Australia.
- It provides access to a high-quality, Australian-based investment management team with a proven track record of running international equity mandates for clients.
- It has a disciplined investment process that utilises a proprietary stop loss review framework and price targets.
- The investment team invests in the fund, creating a strong alignment of interests between the team and the fund's investors.

SUITABILITY

The Fund is designed to maximise long term capital appreciation primarily through exposure to a concentrated portfolio of growth-oriented equities issued by companies located anywhere in the world, except Australia.

You may consider this Fund if you are looking for capital growth, intend to invest in global growth equities for at least 5-7 years, want to access leading-edge companies at the forefront of structural change and are therefore less concerned by short term market volatility.

This Fund is not suitable for those investors with a short investment time horizon (less than 5 years), seeking regular income or do not have a high tolerance for risk.

UNDERSTANDING MANAGEMENT COSTS

The Fund has a management fee of 0.70% p.a.

The Fund also includes a performance fee of 10% of the excess Fund performance above the hurdle rate and the high watermark.

The hurdle rate is the higher of the MSCI World (ex-Australia) Total Return Net Index in Australian dollars and the annualised yield of the 10-year Australian government bond. The Fund needs to exceed both the hurdle rate and the high watermark prior to a performance fee being payable.

More details on the management costs, including worked examples, are available in the Fund's Product Disclosure Statement and Additional Information Booklet which are available on the GSFM website.
